Summary

Frontend developer with over 6 years of experience in building responsive, user-friendly websites and applications. Proficient in HTML, CSS, JavaScript, typescript, strong problem-solving and debugging skills and modern frameworks such as React and Angular. Seeking a challenging role to continue learning and growing as a developer.

Experience   6 Years

Software Engineering III   Mar 2022 - Present
Verizon

Currently working as a frontend developer at Verizon. Experience in full project lifecycle and automated testing using Cypress and Jest. Skilled in pre commit hooks and maintaining coding standards.

Software Engineering II   Dec 2019 – Mar 2022
Verizon

2.3 years of experience as a frontend developer in Angular and React projects. Gained knowledge of Agile workflow and project/code structure at Verizon, a larger company.

Software Engineering   Apr 2017 - Dec 2019
Lister Technologies

2.8 years of experience as a frontend, full stack, and UI/UX developer. Gained a lot of knowledge and experience, and explored new technologies. Great company for a fresher to work with and enriched my knowledge and experience.
